

MYANMAR RECRUITMENT AGENCIES DIRECTORY

A Message from the Chairperson of MOEAF

The Myanmar Overseas Employment Agencies Federation (MOEAF) is pleased to collaborate with Issara Institute to provide this directory of information about its members. Recruitment agencies voluntarily provided information in 2019 to be published and highlight their services to potential customers, to job seekers, and to other interested stakeholders. For jobseekers, this builds upon information about recruitment agencies available in Myanmar language, including through Issara's Golden Dreams application. It is our hope that this publication will grow to include more and more MOEAF members. The directory will also be available in Myanmar and Thai languages and will be available electronically. It is our hope that transparent and open information about our members will provide them exposure and contacts, and contribute to a more ethical recruitment system for Myanmar workers.

**U Peter Nyunt Maung
Chairperson
MOEAF**

Myanmar Overseas Employment Agencies Federation (MOEAF) was formed on 30 November 2012 under the supervision of the Ministry of Labor, Immigration and Population (formerly known as Ministry of Labor, Employment and Social Security). It was

officially registered as a local NGO on 30 November, 2015. MOEAF functions under the leadership of 25 Executive Committee members whose role is to ensure member agencies comply with the rules and regulations of the government, the MOEAF Code of Conduct, and abide by international standards for the recruitment of workers.

Myanmar Overseas Employment Agencies Federation (MOEAF) aims to uphold its reputation as an effective and efficient organization, working with the Myanmar recruitment industry to comply with the competitive standards of overseas recruitment markets. The Federation cooperates with governmental organizations, UN and international organizations, NGOs and civil society organizations to promote safe migration and protection of the rights of migrant workers.

Issara Institute is an independent non-profit organization based on Thailand, Myanmar and the United States, tackling issues of human trafficking and forced labor through data, technology, partnership and innovation. The Institute was established in 2014 by

a team of anti-trafficking experts coming out of the United Nations who created an alliance of private sector, civil society, and government partners to address labour issues in global supply chains. It is staffed by leading regional and international experts in labour rights, business consulting, and ethical sourcing, based in Thailand and Myanmar, with additional technical advisors in the US and UK.

Issara works intensively within the extended seafood, agriculture, apparel and footwear, and electronics supply chains, including labour recruitment, working closely with suppliers, recruiters, and global brands and retailers. Issara Institute takes a market systems development approach to reducing forced labour and human trafficking as we believe that the welfare of millions of workers in global supply chains can be improved if business can act more responsibly and ethically.
